2. Any Soldier who is impaired by drugs or alcohol jeopardizes the safety of his fellow Soldiers. Leaders at all levels will identify Soldiers with a substance abuse problem and ensure referral (DA 8003) to the Army Substance Abuse Program (ASAP) for an evaluation. Unit commanders will support the recommendations made by the experts to either enroll the Soldier in treatment or offer the Soldier education.

3. Alcohol abuse is an irresponsible use of alcohol leading to misconduct, unacceptable social behavior, or impairment of an individual's performance of duty, physical or mental health, financial responsibility, or personal relationships. Alcohol abuse is incompatible with the standards and goals of the Army. Alcohol abuse reduces job performance, jeopardizes combat readiness, and destroys family life.

4. I expect leaders to be role models in personal conduct. The HHD Commander will notify me of all alcohol-related incidents involving his Soldiers.

5. As the Summary Court-Martial Convening Authority (SCMA) I reserve Article 15 and Court-Martial jurisdiction over all drunk driving offenses as well as any drug related offenses for Soldiers PVT through

This Policy Memorandum supersedes Policy Memorandum #1-9, dated 1 Oct 04, and remains in effect until superseded or rescinded.

SSG. The Special Court-Martial Convening Authority, the USAG Franconia Commander, reserves jurisdiction for all drug and alcohol related cases involving Soldiers in ranks of SFC through CSM. The Commanding General, 7th Army Training Command retains jurisdiction in all cases involving officer misconduct.

6. Leaders must identify Soldiers with potential substance abuse problems before this abuse affects them, their fellow Soldiers or their families. Identify those Soldiers who abuse drugs and alcohol, help those who we can help and take appropriate action against those we cannot. Soldiers have the right to expect each member of their section to pull their share of the load.
